IMAGINE Software to Showcase IMAGINE V 10™ at 2011 RBMA Radiology Summit

CHARLOTTE, NC – IMAGINE Software, a leading provider of medical billing solutions, will launch the latest version of the industry-leading IMAGINE practice management suite, IMAGINE V 10™, at the 2011 Radiology Business Management Association (RBMA) Radiology Summit.

The Radiology Summit attracts radiology professionals from across the country and represents a key audience for IMAGINE products and services. Attendees of the Radiology Summit will be able to view IMAGINE V 10™ at Booth #600 from June 5-7, 2011 at the Hilton Riverside Hotel in New Orleans. Featuring a variety of completely user-driven enhancements, IMAGINE V 10™ includes new modules and drill-downs for reporting, ticklers, and dashboards; improved VoIP capabilities; additional “hot key” functionalities for faster navigation; and exclusive utilities to aid users with auditing, PECOS, and ICD-10. IMAGINE V 10™ will be available for new client implementation and as an upgrade for existing IMAGINE users at no additional cost.

“We are proud to officially launch IMAGINE V 10™ at the 2011 RBMA Radiology Summit,” stated Sam Khashman, CEO of IMAGINE Software. “Simply put, this is the most powerful IMAGINE yet, and our team is excited to demonstrate the industry’s first intelligent, multi-platform, multi-channeling practice management system by showcasing IMAGINE V 10™ and its productivity and automation capabilities.”

IMAGINE Software is a RBMA Platinum sponsor and has supported the RBMA since 2004. Among other opportunities, IMAGINE will be sponsoring the Community Service Project at the upcoming Radiology Summit, as well as the Technology Track during the 2011 RBMA Fall Educational Conference in October.

About Technology Partners, Inc. (dba IMAGINE Software) and IMAGINeradiology™

Technology Partners, Inc. has led the way in developing and supporting automated medical business management solutions for 11 years with its flagship product, IMAGINeradiology™. A wide range of Microsoft-based office tools and features makes integration and conversion to IMAGINE easy. The IMAGINE Suite has been heralded for its ability to streamline billing/collections workflow, improve staff productivity and increase practice profitability with an unsurpassed billing engine and collections automation that reduces the lifecycle of claims. IMAGINE offers its own advanced document imaging technology, an Auto Coder feature, EOB Reader, and direct-to-payer claims submissions, as well as electronic remittance. The IMAGINE team offers highly acclaimed products and services that have revolutionized the way practices and billing offices do business. With the full support of its customers, leadership, and partners, TPI provides innovative products that expand to accommodate the changing needs of today’s medical practices.
