IMAGINE Software Unveils New Community Website, IMAGINE Nation

Charlotte, NC – Technology Partners, Inc. (dba IMAGINE Software), a leading provider of medical billing technology, recently launched a new community website to connect its clients and employees while promoting communication about IMAGINE products and services.

Members of IMAGINE Nation will be able to directly share their ideas and suggestions for improvement with the IMAGINE team, join various user networking groups, and comment on community forum discussions. The website features a variety of interactive education sections that provide recent information about IMAGINE updates, the latest press releases and newsletters, as well as training videos and webinars on IMAGINE products and features. IMAGINE Nation members will also be able to participate in IMAGINE Rewards, an incentive program that awards points for certain member activities which can then be exchanged for merchandise, electronics, and IMAGINE Bucks.

“The goal of IMAGINE Nation is to offer our clients and employees better access to information about IMAGINE while providing a creative environment to express their thoughts and opinions,” stated Bethany Wells, marketing manager for IMAGINE Software. “We have worked hard on developing IMAGINE Nation and feel that it will help strengthen communications between our team and our users. Launching this site marks an important milestone for us, and we look forward to receiving direct feedback from our growing community.”

About Technology Partners, Inc. (dba IMAGINE Software) and the IMAGINE system

Technology Partners, Inc. (dba IMAGINE Software), a Microsoft® Gold Certified Partner, has led the way in innovation of automated medical business management solutions for ten years with its flagship product, IMAGINEradiology™. A vast array of Microsoft-inspired tools and features allow IMAGINE 10™ to offer complete integration. The IMAGINE System has been heralded for its ability to streamline the billing/collections process, improve staff productivity and increase practice profitability with unsurpassed processes. IMAGINE offers its own Smart Imaging Technology, an Auto Coder feature, Appliance Processing, an EOB Reader, and Direct-To-Payer Claims Submissions, as well as electronic remittance. The IMAGINE team offers cutting edge products and services that are revolutionizing workflow automation for practices and billing offices. With the full support of its customers, leadership, and partners, TPI provides solutions that expand to accommodate the changing needs of today's medical practices.
