IMAGINE Software Welcomes Rock Hill Radiology Associates

Charlotte, NC – Technology Partners, Inc. (dba IMAGINE Software), a leading provider of medical billing technology, announces that Rock Hill Radiology Associates (RHR) has selected the IMAGINEradiology™ Practice Management Suite for its billing and collection needs.

Rock Hill Radiology Associates, located in Rock Hill, S.C., supports nine radiologists with expertise in all areas of imaging, including Mammography, Neuroradiology, Ultrasound, Nuclear Medicine, MRI, PET, Pain Management, and CT Scanning.

“Nearly 10 years ago, RHR was one of the first IMAGINE clients,” said W. Daniel Rushing III, M.B.A. & CEO of Rock Hill Radiology Associates. “After years with another practice management provider, we reviewed different options in the marketplace and went searching for a software solution that could provide complete and expanded integration with all of our third party partners while also helping drive down per transaction costs and increase net receipts. In IMAGINE, we found high praise from the existing customer base for ongoing support and in our review, not a single IMAGINE customer was considering another practice management solution. In choosing IMAGINE, we decided to change out every piece of hardware, software, workstations, servers, and our entire network configuration. The ramp up, installation, training and implementation have met every milestone, confirming RHR’s decision to select IMAGINEradiology™ as its solution and to rejoin the IMAGINE family.”

“This decision reaffirms our reputation as a well-established and reliable organization, while continuing to endorse IMAGINEradiology™ as the industry standard for innovative technology,” stated Frank Hayes, vice president of sales for IMAGINE Software. “We are truly pleased to reunite with Rock Hill Radiology Associates and look forward to a mutually fulfilling partnership together.”

About Rock Hill Radiology Associates

Rock Hill Radiology Associates (RHR) has offered advanced Diagnostic and Interventional radiology in both York and Chester counties of South Carolina and the Charlotte metropolitan area in North Carolina since 1957. RHR’s sub-specialized radiologists are board certified and fellowship trained, providing services to Piedmont Medical Center in Rock Hill, S.C. and Chester Regional Medical Center in Chester, S.C., as well as several outpatient imaging centers.
