IMAGINE Software Announces Version 5010 Compliance Upgrade

Charlotte, NC – Technology Partners, Inc. (dba IMAGINE Software), a leading provider of medical billing technology, announces its newest release, IMAGINE V 10™, is fully compliant and compatible with Version 5010 as designated by the Centers for Medicare & Medicaid Services (CMS). The mandatory change requires all healthcare organizations to begin using Version 5010 electronic healthcare transaction standards effective as of Jan. 1, 2012.

In preparation for the Version 5010 deadline, IMAGINE is positioned to continue providing exceptional customer support and technology during the conversion process. Clients are currently participating in testing procedures to ensure a smooth transition with minimal interruptions. The 5010 upgrade is being offered at no cost to all IMAGINE customers, in addition to complimentary support services to aid users with Version 5010 system testing and implementation, such as concentrated training, analysis and assessment, partner interfacing, and ongoing communication.

“Preparing IMAGINE V 10™ for the Version 5010 mandate is an important milestone in our efforts to provide continued streamlined operations and innovative technology,” said Charles Kauffman, vice president of software engineering for IMAGINE Software. “Our team is making sure our clients will be 5010 ready in a timely fashion, and we are confident that IMAGINE V 10™ will deliver effective results during and after the conversion process.”

About Technology Partners, Inc. (dba IMAGINE Software) and the IMAGINE system

Technology Partners, Inc. (dba IMAGINE Software), a Microsoft® Gold Certified Partner, has led the way in innovation of automated medical business management solutions for eleven years with its flagship product, IMAGINEradiology™. A vast array of Microsoft-inspired tools and features allow IMAGINE 10™ to offer complete integration. The IMAGINE System has been heralded for its ability to streamline the billing/collections process, improve staff productivity and increase practice profitability with unsurpassed processes. IMAGINE offers its own Smart Imaging Technology, an Auto Coder feature, Appliance Processing, an EOB Reader, and Direct-To-Payer Claims Submissions, as well as electronic remittance. The IMAGINE team offers cutting edge products and services that are revolutionizing workflow automation for practices and billing offices. With the full support of its customers, leadership, and partners, TPI provides solutions that expand to accommodate the changing needs of today's medical practices.
