IMAGINE Software Announces Record Growth and Future Expansion

Charlotte, NC – Technology Partners, Inc. (dba IMAGINE Software), a leading provider of medical billing technology, announces record growth of existing operations with the addition of new hires to bolster the company's Development, Client Services, Product Management, and Implementation departments.

The added staffing will support the level of customer growth IMAGINE has experienced in 2011, while positioning the company for anticipated future expansion. Each new team member was selected based on an extensive evaluation of several areas, namely prior industry experience, expert skill set, as well as overall fit with the company. Earlier this year, IMAGINE relocated to a larger facility better suited to accommodate its expanding team and allow for easier client access.

"Our recent and projected growth and our strong desire to service our clients well called for the expansion of our staff at our home base," stated Sam Khashman, president and CEO of IMAGINE Software. "Our momentum is attracting great people, and we are truly investing in our team and, in turn, our clients. I am very excited to welcome these latest employees and am confident they will continue to maintain and raise the bar of high productivity, support and ingenuity that our customers expect."

About Technology Partners, Inc. (dba IMAGINE Software) and the IMAGINE system

Technology Partners, Inc. (dba IMAGINE Software), a Microsoft® Gold Certified Partner, has led the way in innovation of automated medical business management solutions for ten years with its flagship product, IMAGINEradiology™. A vast array of Microsoft-inspired tools and features allow IMAGINE 10™ to offer complete integration. The IMAGINE System has been heralded for its ability to streamline the billing/collections process, improve staff productivity and increase practice profitability with unsurpassed processes. IMAGINE offers its own Smart Imaging Technology, an Auto Coder feature, Appliance Processing, an EOB Reader, and Direct-To-Payer Claims Submissions, as well as electronic remittance. The IMAGINE team offers cutting edge products and services that are revolutionizing workflow automation for practices and billing offices. With the full support of its customers, leadership, and partners, TPI provides solutions that expand to accommodate the changing needs of today's medical practices.
